Guwahati, Assam, India

SUMMARY

Mathematics graduate and Full Stack Developer specializing in Next.js and React, with a strong focus on building responsive, accessible, and high-performance user interfaces. Experienced in integrating frontend with secure, scalable backends using Node.js, Express.js, and MongoDB. Skilled in API optimization, database management, and implementing robust authentication systems.

PROFESSIONAL EXPERIENCE

Einweit Technologies   **Sept 2024 - Present**
Full Stack Developer - Contractual

1. Integrated Firebase for real-time data, auth, and database management.
2. Developed RESTful APIs using Node.js and MongoDB for efficient data handling and secure backend operations.
3. Optimized performance and implemented secure, scalable solutions.
4. Debugged and troubleshot issues for a seamless user experience.
5. Built responsive UIs with React for web applications.

SKILLS

- React.js
- JavaScript
- Next.js
- Tailwind
- Node.js
- Bootstrap
- Express.js
- Firebase
- MongoDB
- Supabase

PROJECTS

E-commerce Platform (User & Admin Panel)   **Live Link** | **Source code**

- User Frontend: Provides a seamless shopping experience with optimized performance, responsive design, and secure payment processing via Razorpay.
- Admin Panel: Enables efficient store management with secure file uploads using AWS S3 pre-signed URLs.
- Tech Stack: Next.js, REST API, Axios, Interceptors, Tailwind CSS, Razorpay

AI Query Dashboard   **Live Link** | **Source code**

Modern, responsive web application that provides real-time business insights through an dummy AI-powered query system. Built with Next.js and Redux, featuring data visualizations and a user-friendly interface.

Healthcare Management System - Backend   **Source code**

This backend API streamlines hospital operations with secure doctor and patient authentication and appointment scheduling. Built with Node.js, Express, and MongoDB, it uses JWT and Bcrypt for robust authentication.
